## **ARCHITECTURAL REVIEW COMMITTEE**

### **STANDARDS & PROCEDURES**

Amended and Restated June 26, 2017

Superseding Original September 1985 and All Amendments to the Original

*The Troon Village Association encourages and supports the repair, remodel or enhancement of homes or property within the community. However, any and ALL changes to the exterior of the home or landscape require the review and approval of the Troon Village Association Architectural Review Committee PRIOR to beginning any construction. Please review these guidelines before beginning any redesign work on any part of the exterior of the home or landscape. Feel free to contact the ARC with any questions or clarifications regarding these requirements. These Standards and Procedures do not supersede any City of Scottsdale Building Codes, Zoning Ordinances, City Guidelines as they now exist or may be later modified.*

# **TROON VILLAGE ASSOCIATION**

## **ARCHITECTURAL REVIEW COMMITTEE STANDARDS AND PROCEDURES**

---

- a. A solar energy device must be placed in the back yard or on a portion of the roof facing away from the Common Area so as to not be visible from any other Lot, Parcel or Common Area to the maximum extent possible. The solar energy device must be shielded from view so as to not be visible from any other Lot, Parcel or Common Area to the maximum extent possible. The landscaping or architectural element used to shield the solar energy device must be approved in advance by the ARC.
- b. Any visible accessories such as conduit or utility boxes visible from adjacent properties must be painted to match the adjacent surface of the building. Where practical, wiring, conduits and accessories should be placed in discrete locations, run within walls or behind parapets, etc.
- c. The solar energy device must comply with all applicable city, county and state laws, regulations and codes. The Association must be provided with a copy of any applicable governmental permits.
- d. Placement and installation must be pursuant to the manufacturer's instructions.
- e. In order to protect against personal injury and property damage, all solar energy devices must be properly grounded and secured.
- f. In order to protect against personal injury, solar energy devices may not block or obstruct any driver's view of an intersection or street.
- g. All solar energy devices may not encroach into the setbacks, as set forth in Appendix E.

### 9.4 Maintenance

- a. The Owner is responsible for all damage caused by or connected with the solar energy device.
- b. The Owner must hold the Association harmless and indemnify the Association in the event that someone is injured by the solar energy device.
- c. The Owner shall keep the solar energy device in good repair so that it does not violate any portion of these Rules.
- d. All solar energy devices may not encroach into the setbacks, as set forth in Appendix E.

### 9.5 Fees; Expert Advice

- a. Any processing or review fee shall be waived for notifications of installation of solar energy devices.
- b. The Board grants the ARC the authority, in its discretion, to hire a qualified solar energy device expert on behalf of the Association. The ARC may hire such expert to assist an Owner in the selection, placement, and design of solar energy devices on the Owner's Lot or Parcel, in order to balance the Owner's solar energy goals with the Association's and other Owners' desire to maintain the integrity of the design aesthetic of Owner's property in harmony with the natural environment. In addition, the ARC may hire such expert to determine whether, in accordance with the restrictions imposed by law, there are reasonable alternative locations for solar energy devices on an Owner's Lot or Parcel. The cost of the expert's services shall be a

# **TROON VILLAGE ASSOCIATION**

## **ARCHITECTURAL REVIEW COMMITTEE STANDARDS AND PROCEDURES**

---

common expense of the Association. Notwithstanding the foregoing, the Board reserves the authority to establish rules, regulations, or guidelines for the ARC's authority to hire such expert.

### 9.6 Enforcement

- a. The Board of Directors shall have the authority to enforce these provisions in any manner provided by law.
- b. Notwithstanding anything contained in these Rules, the ARC Standards and Procedures for Troon Village, the Declaration, or any other document governing the Association, these rules shall not be enforced in a way that (1) prevents the installation of a solar energy device; (2) impairs the functioning a solar energy device; (3) restricts the use of a solar energy device; or (4) adversely affects the cost or efficiency a solar energy device.

### 9.7 Severability

- a. If any provision of these Rules is ruled invalid, the remainder of these rules shall remain in full force and effect.
- b. If the Legislature of the State of Arizona modifies A.R.S. § 33-1816 or A.R.S. § 44-1761, the modified laws shall be incorporated into this Resolution as if fully set forth herein.

# **TROON VILLAGE ASSOCIATION**

## **ARCHITECTURAL REVIEW COMMITTEE STANDARDS AND PROCEDURES**

---

### **10. DEFINITIONS OF TERMS**

The following words or phrases when used herein shall have the following meanings:

10.1 Architect

“Architect” means a person appropriately licensed to practice architecture in Arizona.

10.2 Architectural Standards and Procedures

“Architectural Standards and Procedures” means the architectural standards and procedures adopted and enforced by the Architectural Review Committee (ARC) as set forth herein and as amended from time to time.

10.3 Backlighting

“Backlighting” means installing a lighting fixture so that it illuminates a hard surface behind a plant or object, producing a contrast that shows the shape of the plant or object while reducing detail.

10.4 Builder

“Builder” means a person or entity engaged by an Owner for the purposes of constructing any Improvement within the Property. The Builder and Owner may be the same person or entity. All Builders must hold an Arizona contractor’s license.

10.5 Building Setbacks

Required Building Setbacks are defined in Appendix ‘E’ of this document and restrict the location of the Building on the Lot.

10.6 Building

“Building” means the residential house including all building elements, i.e. livable and non-livable space. Building elements include but are not limited to enclosed and /or covered exterior spaces such as front court yard, privacy walls attached to the main building and all building projections such as fireplaces and roof overhangs.

10.7 Development Envelope

“Development Envelope” means the maximum allowed developable portion of each Lot or Parcel. Specifically, this is the portion of each Lot within the Building setbacks, less any required Natural Area Open Space and/or mandated easements. The Development Envelope is based on the gross area of the Lot as set forth in Appendix ‘E’.

10.8 Contained Area

“Contained Area” means that part of the Development Envelope which is separated from the Natural Area Open Space either by a Transitional Area or a design element such as an approved wall or fence. The Contained Area is the

# **TROON VILLAGE ASSOCIATION**

## **ARCHITECTURAL REVIEW COMMITTEE STANDARDS AND PROCEDURES**

---

least restrictive in terms of what vegetation can be planted therein, which include those plant materials listed in Appendices A, B and C attached hereto, and, if first approved in writing by the Architectural Review Committee, any other plant not included in Appendix D attached hereto (the “Prohibited Plants”).

### 10.9 Foot-candle

“Foot-candle” means the unit of measure equivalent to the illumination produced by one candle measured at a distance of one foot.

### 10.10 Fill

“Fill” means any addition of earth, rock or other materials to the surface of a Lot or Parcel, which increases the natural elevation of such surface.

### 10.11 Glare

“Glare” means the negative term describing uncontrolled light that produces discomfort for the viewer.

### 10.12 Grading

“Grading” means any disturbance of the surface of a Lot or Parcel (except to the extent reasonably necessary for planting of approved vegetation), including any trenching which results in the removal of earth, rock, or other materials from a depth of more than twelve (12) inches below the natural surface of the Lot or Parcel or any grading of the surface of the Lot or Parcel.

### 10.13 Improvement

“Improvement” means each and every change, alteration or addition of any kind whatsoever to any portion of the Property, including, but not limited to, any excavation, grading, fill, building, walkway, driveway, parking area, retaining wall, privacy wall, fence, swimming pool, utility installation, drainage facility, stair, patio, courtyard, pole, sign or landscaping and any and all components of any of the foregoing (including, but not limited to exterior paint, texture, color and finish scheme) and any and all modifications or alterations of or additions to any of the foregoing. (Declaration Section 1.17). On the larger custom home lots, ALL Improvements must be contained within the Development Envelope.

### 10.14 LED

“LED” means the acronym for Light Emitting Diode; a type of light bulb.

### 10.15 Lumen

“Lumen” means a measurement of light equal to one foot-candle falling on one square foot of area.

### 10.16 Indigenous Species

“Indigenous Species” means a species of plant, whether ground cover, shrub, cactus or tree, which is identified as “Indigenous to site” in Appendices A or B.

# **TROON VILLAGE ASSOCIATION**

## **ARCHITECTURAL REVIEW COMMITTEE STANDARDS AND PROCEDURES**

---

### 10.17 Natural Area Open Space (NAOS)

“Natural Area Open Space” means that portion of the natural desert within a Lot or Parcel, but outside of the Development Envelope, which must remain undisturbed pursuant to the City of Scottsdale’s regulations.

### 10.18 Natural Area Open Space Easement

“Natural Area Open Space Easement” means the easement required by the City of Scottsdale to preserve the natural area of a Lot.

### 10.19 Protected Plants

“Protected Plants” means those Indigenous Species of cacti that are three (3) feet or greater in height or trees which are four (4) inches or greater in caliper, including: Ironwood, Mesquite, Palo Verde, Saguaro, Barrel cactus, Ocotillo and Yucca as listed in the City of Scottsdale’s Native Plant Ordinance.

### 10.20 Transitional Area

“Transitional Area” means that part of the Development Envelope which is between the Contained Area and the “Natural Area Open Space”. The plant materials which are permitted to be used in the Transitional Area are listed in Appendices A and B.

## ARCHITECTURAL REVIEW COMMITTEE STANDARDS AND PROCEDURES

### APPENDIX A – PLANT LIST FOR ALL AREAS

Note that plants approved prior to this revision are “grandfathered” so long as they remain alive and in good condition. If a grandfathered plant is to be replaced after the date of this revision, an appropriate replacement plant must be selected from one of the following lists based on location.

Appendix A plants may be used in any area of a lot.

#### COMMON NAME

#### BOTANICAL NAME

##### Trees

Acacia Varieties	
-Catclaw Acacia	<i>Acacia greggi</i> **
-White Thorn Acacia	<i>Acacia constricta</i> **
Canyon Hackberry/ Desert Hackberry	<i>Celtis pallida</i> **
Crucifixion Thorn	<i>Castela emoryi (Holacantha emoryi*)</i> <i>Canotia holacantha</i> **
Desert Willow	<i>Chilopsis linearis</i> **
Ironwood	<i>Olneya tesota</i> *
Mesquite Varieties	
-Texas Honey Mesquite	<i>Prosopis glandulosa torreyana</i> ***
-Velvet Mesquite	<i>Prosopis velutina</i> **
Palo Verde Varieties	
-Blue Palo Verde	<i>Cercidium floridum</i> *
-Foothills Palo Verde	<i>Cercidium microphyllum</i> *
One-seeded Juniper	<i>Juniperus monosperma</i> **
Sugar Sumac	<i>Rhus ovata</i> **

##### Shrubs

Arizona Rosewood	<i>Vauquelinia californica</i>
Barberry	<i>Berberis trifoliolata</i>
Brittlebush	<i>Encelia farinosa</i>
Chuparosa	<i>Justicia californica</i> *
Creosote Bush	<i>Larrea tridentata</i> *
Desert Lavender	<i>Hyptis emoryi</i>
Desert Spoon	<i>Dasyliiron wheeleri</i> **
Desert Tea	<i>Ephedra nevadensis</i>
Flattop Buckwheat	<i>Eriogonum fasciculatum v. polifolium</i>
Four-wing Saltbush	<i>Atriplex canescens</i>
Golden Eye	<i>Viguiera deltoidea</i>
Grey Thorn	<i>Zizyphus obtusifolia</i> *
Hop Bush	<i>Dodonaea viscosa</i> **
Jojoba	<i>Simmondsia chinensis</i> *
Mormon Tea	<i>Ephedra trifurca</i> *
Ocotillo	<i>Fouquieria splendens</i> *
Pink Fairy Duster	<i>Calliandra eriophylla</i> **
Shrubby Senna	<i>Senna wislizenii</i>
Sugar Bush	<i>Rhus ovata</i> ** ( <i>microphylla</i> )
Triangleleaf Bursage	<i>Ambrosia deltoidea</i>
